Hi Jordan-

The FY23 DRPT SYIP has now been published for public comment. We can now proceed with processing the FTA 5310 TIP activity sent in late March.

I've reattached the spreadsheet noting the changes needed.

Thanks for your help and please let me know if you have any questions.

Subject: Re: FTA 5310 TIP Revisions

Hi Jordan-

Can you hold off on taking any action with the FTA 5310 projects I sent until further notice? DRPT would like to wait for the SYIP draft to be made public before any TIP action is processed.

Thanks.

Subject: FTA 5310 TIP Revisions

Hi Jordan-

DRPT will be submitting an application to the FTA for 5310 funds sometime next month. The FTA requires that the project TIP and STIP entries reflect the funding that we are applying for.

Can you process the TIP admin modifications noted in blue for the projects shown on the attachment? Once approved we will then make the changes to the STIP.

The FTA is requesting that project modifications be made in the current federal fiscal year, FY22. Normally the modifications would be made in the state FY, but this is a new FTA policy in place.

Also, our transit manager has also looked at those projects which receive funding every year and has made additions to FY23 and FY24 in anticipation that we may not have to request future TIP changes for those years. These are also noted in blue - can they be made to the TIP as this time also?

Thanks for your help and please let me know if you have any questions.
