Mr. Ian Ollis

Fredericksburg Area Metropolitan Planning Organization

406 Princess Anne Street

Fredericksburg, VA 22401

Dear Mr. Ollis,

The Stafford County Board of Supervisors respectfully requests the Fredericksburg Area Metropolitan Planning Organization (FAMPO) research route options for a Rappahannock River Crossing west of Interstate 95. As part of this research, the Board would like FAMPO to consider fiscal impacts, potential funding opportunities, route options, and impacts to existing road networks. The Board requests FAMPO staff keep the Board and other FAMPO localities informed of any developments as they arise.

Enhancing transportation infrastructure remains a strategic priority of the Stafford County Board of Supervisors. Stafford residents have also cited the County's road network as an area of opportunity in the County's 2022 citizen survey.

Thank for your attention to this matter and for FAMPO's continued commitment to enhancing mobility in our region.

Sincerely,

Crystal L. Vanuch,

Chairman, Stafford County Board of Supervisors

Rock Hill District
